Journal

Office of the Legislative Counsel

Tuesday - 21 July 1959

25X1 1. [] along with [] (Personnel),
sat in on the House Post Office and Civil Service Committee hearings on
pending health insurance bills. Hearings will continue on Thursday,
23 July. (See Memorandum for the Record for complete details.) 25X1

2. Delivered to Robert Smart of the House Armed Services Committee
Staff the corrected Committee copy of the Kilday Committee briefing
on 7 July.

25X1 3. [] for NSA, called to chat about the
Oversight Allowance Bill reported by the House Post Office and Civil
Service Committee (H.R. 7758). The conversation then shifted to the
health insurance proposals pending before that Committee. NSA apparently
has not yet given serious consideration to the effect which this legislation
might have on their program which is also underwritten by Mutual of Omaha.
Request was made to [] to let us know if NSA proposed to approach
the Committee on the Bill. He promised to do this, however, he felt that
they would probably "rock along" with the Bill. 25X1

25X1 4. [] WH Division, telephoned to inquire if a []
was appearing before the Eastland Subcommittee. This matter was checked
with Jay Sourvine, who indicated that there was no present plan for a
hearing. However, he, Sourvine, might possibly interview [] in the near
future. Mr. Sourvine also advised that he did not know the present where-
abouts of [] but if he learned where he was staying, he would advise
us. This information was given to [] 25X1

25X1 5. [] telephoned to advise that General Cabell accepted the
recommendation that the Director as well as General Cabell be included
in the proposed visit with Representatives Tom Murray (D., Tenn.) and
Edward H. Rees (R., Kan.) 25X1
